

Welcome to TaylorWorld™.

We are experts in the RPG's, Dungeons and Dragons, Pathfinder and Starfinder. Our website is <https://taylorworld.one> and our contact email is ptaylor@taylorworld.one.

If you see this leaflet and your interested in exploring these games, either email us, show your interest in the Bailiffs Tap or leave a message on our Facebook page <https://www.facebook.com/brobostigon/> .

We do taster sessions and other kinds of gaming events at the Bailiffs Tap in Banbury, Oxfordshire, where you can come and get reacquainted with the RPG's you love and remember. We will also be doing tasters and games on the current Pathfinder Playtest, as well the the current released versions of Dungeons and Dragons, Pathfinder and Starfinder.

Pathfinder and 'Dungeons and Dragons' are traditional D20 based, medieval setting RPG's. Starfinder is also a D20 based RPG, however its based in the future, and has significant differences, a variety of different charecter races, which include the Android and the Ysoki, a variety of different charecter classes, which include the Technomancer and the Mystic. Starfinder also includes things like Laser Pistols, StarShips, cybernetic enhancements and different ways of casting magic, like the Spell Cache the Technomancer recieves, which is similar to the Arcane Bond or the Arcane Focus in Pathfinder, which allows you to store a spell in an object (commonly for the Technomancer this is some sort of Technological Device), and cast another spell per day of a level you know.
